Main Products

1. Coco Peat (Coconut Coir Pith / Coir Dust)

HS Code : 5305.00.00

Description : Organic growing medium for agriculture, horticulture, and hydroponics.

Specifications:

- Form: Block / Brick / Loose (5–10 kg per unit)
- Moisture: 10–15%
- pH: 5.5 – 6.8
- EC (Electrical Conductivity): < 0.5 mS/cm
- Fiber content: < 5%
- Color: Light to dark brown
- Impurities: Max. 2%
- Water absorption: 6–8x dry weight

Advantages:

- 100% natural and biodegradable
- Washed and dried according to export standards
- Suitable for hydroponics, seedling, and horticulture

2. Coco Fiber / Coco Bristle

HS Code : 5305.11.00

Description : Coconut fiber used for mattresses, cushions, carpets, ropes, and crafts.

Specifications:

- Fiber length: 5–25 cm (export grade: 20–30 cm)
- Moisture: < 18%
- Impurities: < 3%
- Color: Golden brown / natural brown
- Long fiber content: $\geq 70\%$
- Dust content: Max. 2–3%

Advantages:

- Strong and durable fiber
- Eco-friendly and biodegradable
- Suitable for mattress, sofa, carpet, and handicraft industry

3. Charcoal Briquette

HS Code : 4402.90.10

Description : Premium coconut charcoal briquettes for BBQ and hookah.

Specifications:

- Shape: Cube / Hexagonal / Pillow / Finger
- Size: 22×22×22 mm (standard) or customized
- Moisture: Max. 6%
- Ash content: Max. 2.5%
- Fixed carbon: $\geq 75\%$
- Calorific value: > 7000 Kcal/kg
- Density: 1.0–1.2 g/cm³
- Burning time: 80–120 minutes
- Smoke: Low, odorless

Advantages:

- High heat, long burning duration
- Smokeless and crack-free

4. Coir Mat / Coir Net / Coco Doormat

HS Code : 5702.42.00

Description : Coconut fiber mat or net for decoration, landscaping, or soil conservation.

Specifications:

- Material: 100% natural coconut fiber
- Size: Custom (e.g., 1×2 m / 2×3 m)
- Thickness: 5–15 mm / 400–900 gsm (net)
- Color: Natural brown
- Moisture: Max. 12%

Advantages:

- Biodegradable and eco-friendly
- Ideal for landscaping, soil erosion control, and home décor
